

Isaac Muraya Msc. Env. Scie. UK, NI

Director of Environment, Nairobi City County Government, Nairobi, Kenya

Mr. Isaac Muraya is Director of Environment. Nairobi City County Government based in Nairobi, Kenya. He provides strategic guidance in the overall environmental policy and regulation, formulation, coordination and monitoring of environment policy implementation & enforcement in the City County of Nairobi. He mainly focuses on solid waste management including solid waste generation, collection, transportation, intermediate waste treatment and final disposal; Environmental pollution Control including air pollution, noise pollution, water, pollution and general environment; Management of public parks and enhancement of aesthetic appeal of the City of Nairobi.

How can we utilize waste data for policy intervention in SWM?

➤ By ensuring that cities have readily available and credible data on the entire solid waste management chain with a strong view of promoting a circular economy.

What are the challenges to establish a system for appropriate monitoring and comprehensive analysis of SWM-related SDGs in Africa?

➤ There exists gross inadequacy and gaps in waste data in many developing countries, Africa included.
